### DETAILED ACTION

Claims 18-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 18, what does "sound emergence, or sound incidence, surfaces of ultrasonic sensors" (lines 4-5) mean? Keep in mind that the quoted passage precedes "a setup gage is used", and thus should have its own meaning. How does the "surfaces of ultrasonic sensors" influence the "emergence, or sound incidence" alternative? Possibly, the phrase "surfaces of ultrasonic sensors" does not elaborate on the "sound emergence, or sound incidence" alternative, and actually is a third alternative?

As to claim 19, "the flow measuring device" (lines 8-9. 13-14) lacks antecedent basis; what does "the sound emergence, or sound incidence, surface of the ultrasonic sensor" (lines 12-20) mean?

Suggest cancelling claims 18-20.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
